Att.: GP Global MAG LLC

Subject: Suitability for use of MAG Ultra NG 40 using OLOA 44506 technology in Chevron GpII for CAT 3516 TALE natural gas engines

Dear Mr. Waleed Mohamed,

We hereby confirm that natural gas engine oil MAG Ultra NG 40 blended with OLOA 44506 at 8.34% wt% and Chevron 600R meets the requirements of CAT 3516 TALE natural gas engines.

Please do not hesitate to contact us should you need any further information. We look forward to further continuation and development of our co-operation.

Yours sincerely,

Patrice Estoueig
