Approvals according to works standard M 3275 and M 3575

Dear Sir or Madam,

In July 2016, MAN decided to stop the approval of engine oils according to works standard M 3275 and M 3575. Therefore, it will not be possible to apply for new approvals from 01.01.2017 onwards.

Existing approvals according to works standard M 3275 and M 3575 can be prolonged as usual, as long as the formulation is unchanged.

New rebrands or reblends of previously approved formulations can claim "meets M 3275" or "meets M 3575" instead of "approved" under the following requirements:

- Trading approval of the original formulation is still valid
- Confirmation letter of the company who holds the trading approval is available

If a formulation no longer meets the requirements of M 3275 or M 3575, the owner of the original approval and the owner of the reblend or rebrand approval have to ensure that the "meets" claim will be removed immediately.

Yours faithfully
MAN Truck & Bus AG
